

YOUTH PICNIC TABLE

TOOLS REQUIRED: 1/4" SOCKET
ELECTRIC DRILL

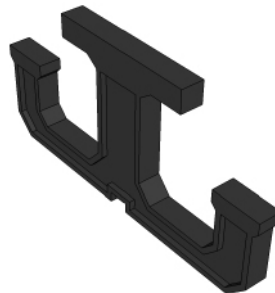

MATERIALS

(4) TABLE TOP SLATS 2" x 6"
(4) SEAT SLATS 2" x 4"

(48) WASHERS

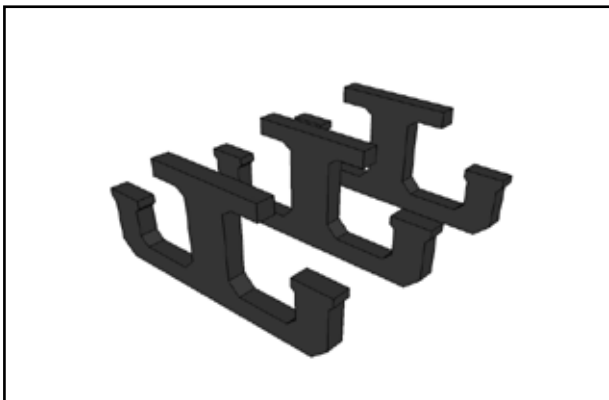

(3) BASES

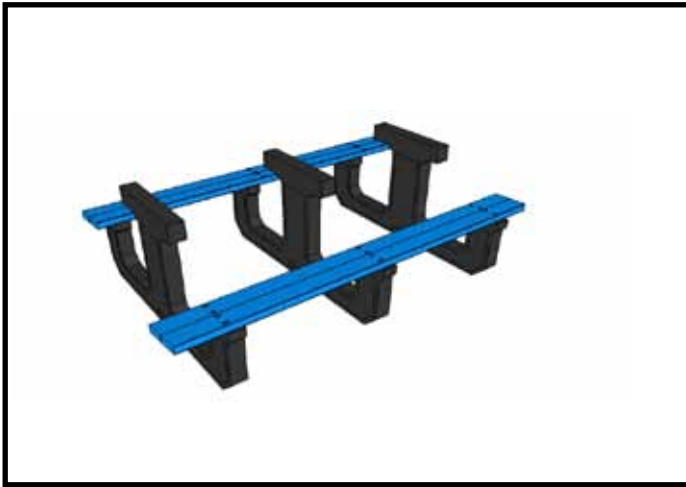

(48) 1/4" x 3 1/2" LAG SCREWS

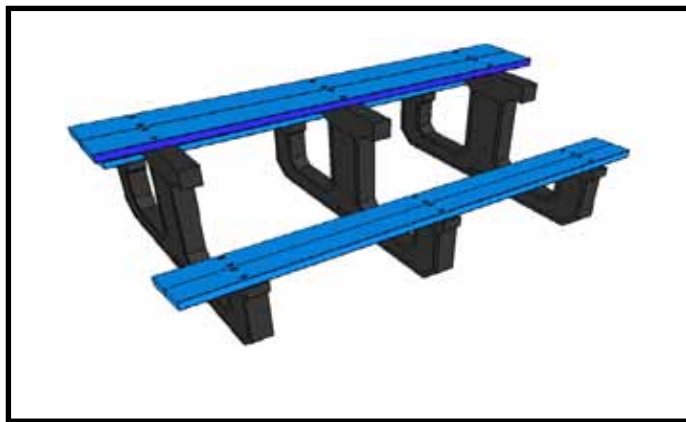

INSTRUCTIONS

1. Verify all parts and hardware before beginning.
2. Place two of the plastic bases on a flat level surface. Using tape measure find midpoint of bases which will be at 30" and place the remaining base in location.

3. Place two seat slat on each side of the base. With the bases in the vertical position, pre-drill two holes on each slat on both ends with a drill bit. Attach the seat slats using the 3 1/2" lag screws.

4. Loosely attaching table slats to plastic base with the 3 1/2" lag screws using the socket wrench. But first make sure to lay them all on top to line them up and pre drill starter holes. Now tighten all screws once you feel you have the table squared up.

5. Now enjoy your table.
